

Caught in the battle of progress, the Old Midway School was set ablaze on Saturday morning. Heber Valley Volunteer Firemen stood by to monitor the fire and a small crowd gathered to watch. The historical

old building's roof collapsed during the heavy winter snows last winter. The decision by the City Council was to demolish the old building and use insurance monies to build replacement

Planning Gives Preliminary Approval

Wave 4 Oct 1984

The Wasatch County Planning Commission gave preliminary approval to the Old Mill Meadows Trailer Court, being proposed to be constructed south of Heber City on Hwy. 40.

The approval was given with several stipulations, that have to be complied with before the final approval can be granted.

The court is proposed with 60 condominium type pads. These

areas would be sold to the individual owners and up-keep etc. will be maintained by the owners.

The project will receive its water through an agreement with the Heber City Water Department, and sewage service will be bought from the Heber City portion of the Heber Valley Special Service District.

One of the stipulations is that

the developers, John Lipman and Brent C. Hill get with the area landowners to discuss what type of fence would be appropriate around the trailer park.

The Planning Commission also approved the building of three caretaker dwellings at the Strawberry Valley by the Strawberry Water Users Association.

Bob Mathis, County Planner, said that the sites have already been submitted for two cabins, but that the Association is starting construction on a third, and that there is a need for the third one. They met all requirements for the dwellings.

The Commissioner approved that the Association could build the third dwelling if they would submit a change in writing to the commission.

It was also approved that Open Field Radio Wave Testing in RA-1 Zone was premissable.

Calvin Jackson, of Open Field Radio Testing, explained that the company measures the amount of radiation given off by household radio, tv, and other appliances, necessary before the product can be approved by the FCC. The test site for the testing is near the Keetley area.

The Commission approved an amendment to Chapter 9-3 of the Zoning Ordinate, which allows developers longer than 2 years after density hearing to begin construction and completion. This amendment was needed to make the Mayflower Project viable. Many of the large projects that are proposed in the county do need more than just 2 years to complete the project.

Since the beginning of the
school season, a number of
shoplifting incidents have occur-
ed during the day. Please be
advised that several business
personnel are aware of the
problem and are carefully mon-
itoring their stores every day.

On 9-15-84, Officer George
Huggard investigated a number
of attempted burglaries within
the city limits. No arrests have
been made at this time and the
case remains open. Mr. Clyde
Miller reported 9-29-84 that
someone had stolen a 20-inch

chain saw from his residence. On
9-19-84 Sally Ripple reported an
AM/FM Car Stereo was stolen
from Radio Shack. The case
continues to be investigated with
possible suspects.

Andrea Hallows reported a
blue Time boy's 10-speed bike
was stolen from her residence
9-27-84.

On 9-23-84 Officer Rex Ped-
ersen and Officer George Hug-
gard recovered property that had
been stolen from the 8th Ward
Church during the month of
July. An arrest in the incident is
pending.

Sergeant Dan Henley res-

ponded to a number of civil
disturbance and noise complaints,
in the past two weeks. No arrests
were made or complaints signed.

Chief Bobby Nelson with
assistance from Officer Rex
Pedersen and Office Don Nelson
assisted in traffic control for the
Wasatch High School Homecom-
ing parade. No problems were
encountered.

A reminder again to those
individuals who own vehicles
interfering with snow removal.
Beginning Nov. 1, all vehicles
obstructing the streets will be
impounded and cited according-
ly.
